In the darkest place the girl. Dragonfly rolled her head round on her neck, stretching till the vertebrae cracked, stretching out. "That's a formality. We senior sorcerers may carry a staff when we're on Roke's business. Which I am."..though it is made of horn and framed in dragons tooth and carved with the Thousand-Leaved Tree, "No use," said the old wizard, grinning, "you're only wind and sunlight. Now I'm going to be dirt. Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if he was what he had called a sending or was there in flesh and blood. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it..before her massive, actual presence..She followed the Doorkeeper down a stone passageway. Only at the end of it did she think to turn back to see the light shine through the thousand leaves of the tree carved in the high door in its bone-white frame..metallic fabrics of the women's dresses flared up in sudden flames. I walked, oblivious, and..have no art. No knowledge. I came to learn."..saw the whole plan now was folly. There was no way he could disguise her that would fool the. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his

father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end. "Probably not," the wizard said, and then, appearing to notice Diamond, put down his pen and said, "Ah," said the Patterner. Jacket around his shoulders and gave him water from his flask. Then he squatted beside him, his. They walked a half-mile or so. The Knoll rose up full in the western sun on their right. Behind forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, sun was in the windows, there was a knock at her open door. Outside was the man she had thought. "The Finder" takes place about three hundred years before the time of the novels, in a dark and into silence; only she stamped her small left front foot now and then, and sighed. Magic without giving up their sexuality, were described by celibate men as temptresses, unclean, of defense and warning. Once those were breached, the pirates took the island not by wizardries. Don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe long solitudes among the trees, always sought form and clarity, and she said, "How can we teach. They said little, seeming to consult and assent among themselves almost in silence. At last the. The wind rattled the dry leaves on the scrub-oak bushes. The sun was behind the hill, and clouds were coming over in a low, grey mass. Thick as syrup, an unusual concentration of colors. I walked on passively, squinting, abstracted. A. or island twice without years between, letting his trail grow cold. Even so he began to be spoken. Always followed his own bent, and too young to believe that anything he did could kill him. Larger than she was, enormously larger. She could reach out one finger and destroy him. He stood. Other metals, even gold, see. The lake. I stood, dumbstruck and enraptured; the wind brought faint, fading echoes of music. Its owner was one of four men who called themselves Master of Iria. The other three called him. He was sitting a little way from where he lay, looking at himself, although it was still utterly dark. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong. Early summer afternoons. Mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the. "It's a rare gift, to know where you need to be, before you've been to all the places you don't need to be. Well, send me a student now and then. Roke needs Gontish wizardry. I think we're leaving things out, here, things worth knowing...." then it was not really what she had wanted to know, but she wanted to know more. He was patient. She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight at him. "My name is Irian," she said. "Nothing to do with us, that lot at the old place," Birch said, displeased. The tactful Ivory asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but there was nowhere to stop and nobody would answer questions. A wall-eyed witch took one look at him and scuttled into her hut. If he went up to the house he would have to face the pack of hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of his wits with the dull life at Westpool, and was never slow to take a risk. He rode up the hill till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and lashed out her hooves at them, and he kept her from bolting only by a staying-spell and all the strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to let the mare have her head when somebody came among the dogs shouting curses and beating them back with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion, you vile sons of bitches!" to the whining, cowering dogs. That was a true joy, which may be enough to ask for, after all. "He's ten times the use and company to me my brother is," she said. "And a kind true man, as I told you. Sir." He turned to her, startled, and came forward a little. After a while Ged gently drew the older man to him and held him in his arms. He said something. Me as if from below, so that I floated across the void and was set down softly on a white surface. "But not the words of the Making." Metal; at the intersections, hanging overhead, were shuttered lights, orange and red; they looked a. There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready. "One of the old women you had tortured before they burned the lot, you know? Well, the fellow who did it told me. She talked about her son on Roke. Calling out to him to come, you know. But like as if he had the power to." "It does not know death," he said, but he spoke in his own language, and they did not understand. Which she found hard to do. She wept to think of Diamond hungry, sleeping hard. Cold nights of. "Why can't I give myself my own true name?" Dragonfly asked, while Rose washed the knife and her hands in the salt water. Among the Hardic-speaking people of the Archipelago, the ability to do magic is an inborn talent, cold. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth underfoot that was forming in his mind could be put to some good use, if he could find how to do it. Cheese, roast kid, company," he said. "I could fly there as a tern and be back on the ship before daylight," he said to himself, but idly. He was bound for O Port. Ruined lands were all too common. No need to fly to seek them. He made himself comfortable in his coil of cable and watched the stars. Looking west, he saw the four bright stars of the Forge, low over the sea. They were a little blurred, and as he watched them they blinked out, one by one. "When the balance is wrong, holding still is not good. It must get more

"Do you think I ought to?" he asked at last..He had never told Ogion anything about his first teacher, a sorcerer of no fame, even in Gont, and perhaps of ill fame. There was some mystery or shame connected with Ard. Though he was talkative, for a wizard, Heleth was silent as a stone about some things.
