The house around her was another part of it. She no longer saw it as the dream it had been on the day they moved down from the Mayflower If, but instead as another part of the same conspiracy-a cheap bribe to seduce her into selling her soul in the same way as a university research post and the lure of a free home had seduced Eve and Jerry. Rifles slung across theft backs, Stanislau and Young stepped away from the squad standing on the sidewalk and helped Colman to heave the crate into the truck waiting to leave for the border checkpoint, while the Chironian who had been struggling to lift it with his teenage son watched. As they pushed the crate back into the truck, it dislodged the tarpaulin covering an open box to reveal a high-power rifle lying among the domestic oddments. "You must know these people, even if you're not one of them yourself."..You mean the way's clear right down to the Battle Module?" Colman asked..Clem frowned and brought a hand up to his chin. "Depends what you mean by authority," he said. "I organize the regular engineering crew of the ship and supervise the maintenance. I suppose you could say that's authority of a kind. Then again, I don't have a lot to do with some of the special research programs and modifications but Hermann does."..Stern looked back at her and smiled humorlessly. "And I'll have one of those cigarettes' that you've been smoking."..Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. Would his descendants in the Asia of eight hundred years later be able to say

the same or to feel the same fulfillment as they scrambled for their share of mass-produced consumer affluence, paraded their newfound wealth and arrogance through the fashion houses and auction rooms of London, Paris, and New York, or basked on the decks of their gaudy yachts off Australian beaches? Kalens very much doubted it. So what had their so-called emancipation done for the world except prostitute its treasures, debase its cultural currency, and submerge the products of its finest minds in a flood of banal egalitarianism and tasteless uniformity? The same kind of destructive parasitism by its own masses, multiplying in its tissues and spreading like a disease, had brought the West to its knees over half a century earlier..Adam excused himself from going out because he had some work to do, and Bobby and Susie had been looking forward to a musical comedy that was being given not far away that evening. Colman assumed that Kath would want to go with them, which would leave him flipping a coin over which show to see; but to his surprise she suggested a drink somewhere for the two of them instead. She explained, whispering, "Anyway, I've already seen it more times than I can count." So who was he to turn it down? Colman asked himself. But at the same time he couldn't avoid the sneaking feeling that it was all just a little bit strange.. "You see--he's practicing being married already," Bernard said to Pernak with a laugh. Pernak grinned momentarily. Bernard looked at his son. "Well, it's early yet. Figured out what you're doing this afternoon?" "Grumbling, but not too bad. Any news from inside?" "Nothing yet. It's about time you took a breather. I'll be out in a few minutes to take a spell with Carson and Young. Tell Swley and Driscoll to stand down with you. They've been out there the longest." Nothing will eliminate the risks completely." He drew a long, heavy breath before answering Bernard's question directly. "But there can be no alteration of our resolution." "I guess I'm not in Kansas anymore."..Across the room in the sunken area below the wall screen, Bernard, Lechat, Colman, and Jay resumed their conversation. "We don't know what they've got exactly, but it's pretty devastating," Jay told Colman. "We figure they've already tested it. There's an extra crater on one of the moons-a couple of hundred miles across-that wasn't there a year ago. "They've had their chance. If they've run away and left it for us, let's take it. Why mess around?".The muscles of Stern's face tensed; he quivered visibly with the effort of suppressing his rage. "I was willing to bargain," he grated. "Evidently we have failed to impress upon you the seriousness of our intentions. Very well, you leave me no further choice. Perhaps a demonstration will serve to convince you." He turned to Stormbel. "General, advise the status of the missile now targeted at the Chiron scientific base in northern Selene."..you're in."..ON THIS, THE eve of the last Christmas that we shall be celebrating together before our journey ends, I have chosen as the subject of my seasonal message to you the passage which begins, 'Suffer little children to come unto me' The voice of the Mission's presiding bishop floated serenely down from the loudspeakers around the Texas Bowl to the congregation of ten thousand listening solemnly from the terraces. The green' rectangle of the arena below was filled by contingents from the crew and the military units standing resplendent and unmoving in full dress uniform at one end; schoolchildren in neat, orderly blocks of freshly laundered and pressed jackets of brown and blue in the center; and, facing them from the far end on the other side of the raised platform from Which the bishop was speaking, the ascending tiers of benches that held the VIPs in their dark suits, pastel coats, and bemedaled tunics. The voice continued. 'The words are appropriate, for we are indeed about to meet ones whom we must recognize and accept as children in spirit, if not in all cases in body and mind ..". He runs the place. Don't pay too much attention or you'll end up buried in junk up to your eyes.'"Good." Stern nodded approvingly. "I detect a cooperative disposition." He turned his face toward the Chironians. "I take it that we are all beginning to understand one another."..Curtis goes to the window, where the drapes have already been drawn aside, and peers out at the
