The Church nourished the soul, while the occult nourished the imagination. In Mexico, where physical comforts were often few and hope of a better life in this world was hard won, both the soul and the imagination must be fed if life was to be livable..Shrieking like carrion-eating birds waiting for their wounded dinner to die, the Hackachaks twice drew stern warnings from nurses. They were told to quiet down and respect the patients in neighboring rooms..As they savored the icy martinis, she asked about the client, and Nolly said, "He

bought the story. I won't be seeing him again." When the long table was laden and the wine poured, when everyone but Mary settled into chairs, Angel said, "My daughter tells me she wants to make a short presentation before I say grace. I don't know what it is, but she assures me it doesn't involve singing, dancing, or reading any of her poetry." The boy wasn't translucent, as his father's ghost had been on that drizzly January night almost three years ago. The same drowned light of this gray afternoon that revealed the gravestones and the dripping. "What was it like, Enoch? Did you look into her eyes when you pushed her?" Vanadium's uninflected monologue was like the voice of a conscience that preferred to torture by droning rather than by nagging. "Or doesn't a woman-killing coward like you have the guts for that?" In the kitchen, Barty sat at the table, and Paul's heart pinched at the sight of the boy in padded eyepatches. "Sulk away," the man said. "If you don't like this work, there's always the roaster." Extending his hand, watching the pianist closely, Junior said, "My name's Richard Gammoner." Into darkness, Celestina sat down to dinner with her mother and her father in the dining room of the parsonage. When Angel came in search of Barty, breathless with excitement, he was chatting with Tom Vanadium in the foundation's office above the garages. Years ago, the two apartments had been combined and expanded when the garages under them were doubled in size, providing better living quarters for Tom and working space, as well. Edom, eager to learn precisely when a tidal wave or falling asteroid would bring his doom, fetched a pack of cards from a cabinet in the parlor. When Maria explained that only every third card was read and that a full look at the future required four decks, Edom returned to the parlor to scare up three more. In addition to delivering a honey-raisin pear pie, Agnes had come to offer Obadiah Sepharad a year's work-not performing magic, but talking about it. A siren in the city wailed toward St. Mary's. An ambulance. Through streets bustling with hope, always this lament for the dying. Ten months later, Simon called again, also regarding Cain, but this time the attorney was the client, and Cain was the target. What Simon wanted Nolly to do was strange, to say the least, and it could be construed as harassment, but none of it was exactly illegal. And for two years, beginning with the quarter in the cheeseburger, ending with the coin-spitting machines, all of it had been great fun. Too much, far too much to contend with, and so unfair: finding the Bartholomew needle in the haystack, hives, seizures of vomiting and diarrhea, losing a toe, losing a beloved wife, wandering alone through a cold and hostile world without a heart mate, humiliated by transvestites, tormented by vengeful spirits, too intense to enjoy the benefits of meditation, Zedd dead, the prospect of prison always looming for one reason or another, unable to find peace in either needlework or sex. The dinner guest leaned back into the car, as though to retrieve something. Perhaps he, too, had been considerate enough to bring a small gift for his hostess. After just twenty-one days, the boy's adaptation to blindness was amazing but clearly the gathered audience stood in anticipation of something more remarkable than his unhalting progress and unerring sense of direction. "I can try, your highness." Because this kind of fictional fact, like maps of imaginary realms, is of real interest to some readers, I include the description after the stories. I also redrew the geographical maps for this book, and while doing so, happily discovered a very old one in the Archives in Havnor. On the drive home, Junior dropped the knife down a storm drain in Larkspur. He tossed the gloves in a Dumpster in Corte Madera. "I didn't know her well. She didn't hang out or party much--especially after the baby." In a minute or two, one of the cops returned, crouching close as the medics worked. "There's no intruder." "That's exactly how I hoped he would be." Relieved, he followed Agnes to the living room. "Listen, Aggie, you know, I don't have anything against Jacob, but-" Agnes pulled the stack of cards in front of her. She discarded the first two, as Maria would have done, and turned over the third. "Who else? I think there's romance in the air. The cow-eyed way he looks at her, she could knock his knees out from under him just by giving him a wink." "That's obvious to us, but not always to others. Apparently, this would have been some years ago." The maniac kicked once more, but because of the bracing dresser, the door wouldn't budge, so he kicked harder, again without success. Following a splendid lunch, having just left the fourth gallery on his list and strolling toward the fifth, Junior didn't at once see the source of the quarters. Indeed, when the first three rapid-fire coins hit the side of his face, he didn't even know what they were. Startled, he flinched and looked down as he heard them ring off the sidewalk. "That would be John George Haigh," Agnes said, checking Barty's diaper before nestling him tenderly in the crook of her arm. His mouth was dry when he said to Angel, "Well, it seems pretty magical to me-that flipped-coin trick." He had time to think of quite a few, because he drove five miles per hour below the posted speed limit. He couldn't risk being stopped for a traffic violation when Thomas Vanadium, the human stump, was dead and bundled in the back. Handing Angel to Grace, Lipscomb said, "I own some investment properties. There's a two-bedroom unit available in one of them." Impress the hell out of the hoity-toity types, take their money, and get famous. She could see now what she hadn't seen when running with him through the cemetery, because she was looking directly at him. Yet even seeing did not make it easy to believe. Vanadium understood the depth of his old friend's pain, and he knew that the anguish over the loss of a child could make the best of men act out of emotion rather than good judgment, and so he accepted Harrison's preference to let the matter rest. When enough time passed for reflection, what Vanadium ultimately decided was that of the two of them, Harrison was much the stronger in his faith, and that he himself, perhaps for the rest of his life, would be more comfortable behind a badge than behind a Roman collar. "Forget Barty's tree for a second and imagine that all these many worlds are like stacked slices of Swiss cheese. Through some holes, you can see only the next slice. Through others, you see through two or three or five slices before holes stop overlapping. There are little holes between stacked worlds, too, but they're constantly shifting, changing, second by second. And I can't see them, really, but I have an uncanny feel for them. Watch closely." "I'm captivated more by painting than I am by most dimensional work," Junior explained. "Really, the only sculpture I've acquired is Poriferan's." As terrible as the situation was for Barty, Agnes knew that it was equally difficult for Paul. She could only hold him in the night, and let herself be held. And more than once, she told him, "If worse comes to worst, don't you go walking again." The house was empty, silent. Hanna worked only days. Nellie Oatis, Perri's companion, was not employed here anymore. "Quick, very quick," he warned, helping Grace through the fire framed window and onto the roof of the porch. Avoiding the graveled driveway, on which he was more likely to scuff his freshly polished loafers, he approached the house across the lawn, beneath the moon-sifting branches of a great pine that made itself useless for Christmas by spreading as majestically as an oak. Books were stacked high on a nearby table, favorite novels and volumes of verse, all of which Agnes had read before. With time so limited, she preferred the comfort of the familiar to the possibility that new writers and new stories would fail to please. Paul read to her often, as did Angel. Tom Vanadium sat with her, too, as did Celestina and Grace. He loved Naomi, of course, and never could deny her. Although he had been especially sweet to her that night, if he had known that they would have less than a year together before fate tore her from him, he might have been even sweeter. She switched on the windshield wipers. Repeatedly, in the arc of cleared glass, the graveyard was revealed in sharp detail, and yet the place

remained less than fully familiar to her. Her whole world had been changed by Barty's dry walk in wet weather..Having risen higher in the sky during the past couple hours, the gold-coin moon reminted itself as silver, and in the black lake, its reflection rolled across the knuckles of the quiet wavelets..With the earth still tenuously stable beneath them, they arrived at their fifth destination, a new address on Agnes's mercy list..Now he had to focus on being ready for the evening of January 12: the reception for Celestina White's art show. She had adopted her sister's baby. Little Bartholomew was in her care; and soon, the kid would be within Junior's reach..It wasn't as if this was Junior's first encounter with a dead body. In the past few years, he'd become as comfortable with the deceased as any mortician might be. They were as unremarkable to him as cupcakes were to a baker..Regrettably, his radiant smile only emphasized, by contrast, the dire shortcomings of the face from which it beamed. Lumpish, pocked, wart-stippled, darkened by a permanent beard shadow with a bluish cast, this countenance was beyond the powers of redemption possessed by the best plastic surgeons in the world, which was no doubt why Nolly applied his resources strictly to dental work..Initially, lying drowsily in the sumptuous comfort of Pratesi cotton sheets with black silk piping, Junior assumed that he was in a twilight state between wakefulness and sleep, and that the singing must be a lingering fragment of a dream. Although rising and falling, the voice remained so faint that he didn't at once identify the tune, but when he recognized "Someone to Watch over Me," he sat up in bed and threw back the covers..The papermaker withdrew a thick wad of hundred-dollar bills from his envelope and, squinting, inspected the currency in the flickering light. "I'm leaving now, but you wait until movie's over."."After the quake," Edom said, "forty thousand people took refuge in a two-hundred-acre open area, a military depot. A quake-related fire swept through so fast they were killed standing up, so tightly packed together they died as a solid mass of bodies."..From her reading, she knew that amniotic fluid should be clear. A few traces of blood in it should not necessarily be alarming, but here were more than traces. Here were thick red-black streams..Oregon State Police might find at least one reason to be suspicious of the tragic scenario that he was creating. He didn't know much about the technology that police might employ at a crime scene, and he knew even less about forensic pathology. He was just doing the best job he could.. "But what made you choose that life? You must have committed to the seminary awfully young."..A dumpster and a dead musician had humbled him as thoroughly as he had ever been humbled before, as completely as violent nervous emesis and volcanic diarrhea had humbled him, and he had no tolerance for being humbled. Humility is for losers..Because Junior's right arm was encumbered by the bracing board and the intravenous needle, he tugged a mass of tissues from the box with his left hand.. "It doesn't have to be grand," she said, with a seductive leer, "but if we're going to wait, then the wedding better be soon.".. "Simon's a good man. Now that he pretty much knows Cain pushed the wife, he doesn't feel better about representing him just because the payoff was big. And in the current case, he's not Cain's lawyer, so there's no conflict of interest, no ethics problem, so he's got a chance to set things right a little."..With a nervous twitch of his avian head and a wary frown, the watcher broke eye contact and slipped into the chattering crowd, lost as quickly as a slender sandpiper skittering among a herd of plump seagulls..WHEN DR. JIM PARKHURST made his evening rounds, Junior didn't continue to feign sleep but asked earnest questions to which he knew most of the answers, having eavesdropped on the conversation between the physician and Detective Vanadium..This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns..The magazine covers were colorful, lurid, full of violence and eeriness and the coy sexual suggestiveness of a more innocent time. Most days, he read a story while eating the two pieces of fruit that were his lunch, but sometimes he lost himself in a particularly vivid illustration, daydreaming about far places and great adventures.. "I've got one of those faces so ordinary you see it everywhere," said Edom, and decided to tell the story of the Tri-State Tornado of 1925..In the hall that served the two ground-floor apartments, they encountered Rena Moller, the elderly woman who lived in the unit across from theirs. She was polishing the dark wood of her front door with lemon oil, a sure sign that her son and his family were coming to dinner..Eye to eye with Tom, Celestina herself did some clear-seeing. "You're special, too, in lots of obvious ways. But like Angel, you're special in some secret way ... aren't you?"..Tom caused less of a stir in the restaurant than Kathleen had expected. Other diners noticed him, of course, but after one or two looks of shock or pity, they appeared indifferent, though this was undoubtedly the thinnest pretense of indifference. The same quality in him that elicited deferential regard from the waiter apparently ensured that others would be courteous enough to respect his privacy..He capped the bottle, pocketed it, and then kicked the dead man, kicked him again, and spat on him.. "But in 'This Momentous Day,' Bartholomew is just the disciple, the historical figure, and he's also a metaphor for the unforeseen consequences of even our most ordinary actions."..After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind..Celestina stood listening until she heard Wally open the outer door and then close it..Shaking with a fear that had nothing to do with Junior Cain and flying bullets, or even with memories of Josef Krepp and his vile necklace, Tom Vanadium closed the sketch pad and put it on the window seat. He opened the window, and in rushed the susurration of breeze-stirred oak leaves..The universe was vast and Barty small, yet the boy's immortal soul made him as important as galaxies, as important as anything in Creation. This Agnes believed. She couldn't tolerate life without the conviction that it had meaning and design, though sometimes she felt that she was a sparrow whose fall had gone unnoticed. Barty sat on the edge of the doctor's desk, legs dangling, holding Red Planet, his place marked by an inserted finger..Jolene started to refill his coffee mug-then thought better of it. "Maybe you don't need more caffeine, Edom."..Throughout the day, he tried not to think about the four knives. But he was an obsessive, of course, so in spite of all his trying, he did not succeed..The hospital was eerily quiet, except for the occasional squeak of rubber-soled shoes on the vinyl floor of the corridor..-and the under girding of the observation platform itself is unstable. The whole thing could have fallen down with us on it!"..He smiled and shrugged. "I used to be a fisher of men. Now I hunt them. One in particular."..Sometimes Barty could be fierce in his independence-his mother told him so-and now he rebuffed Angel too sharply. "I don't want to be waited on. I'm not helpless, you know. I can get sodas myself" By the time he reached the doorway, he felt sorry for his tone, and he looked back toward where the window seat must be. "Angel?".For two years, since finding the quarter in his cheeseburger, Junior had been searching for a metaphysics that he could embrace, that squared with all the truths that he had learned from Zedd, and that didn't require him to acknowledge any power higher than himself Here it was. Unexpected. Complete. He didn't fully understand the bit about monkeys and barrels, but he got the rest of it, and peace of a sort descended upon him.. "Your mother's an artist. Besides, you wouldn't want to put poor Mrs. Ornwall out of a job, would

you?". Although Junior was free of the superstitions that Naomi, in her innocence and sentimentality, had embraced, he wept without pretense. She stepped to the bed, bracketing Junior between her and Big Rude. The stream of obscene invective issuing from Sheena made Junior feel as if he had gotten in the way of a septic-tank cleanout hose. Yet when he put her down in the upstairs hall, she cried out for her husband--"Harry!"--and tried to plunge once more into the narrow stairwell. An unfortunately bumpy ride for the deceased: along the hallway, through the foyer, across the entry threshold, down the porch steps, across a lawn dappled with pine shadows and yellow moonlight, to the graveled driveway. No complaints. Returning the newborn to the nun, Celestina asked for the use of a phone, and for privacy. He backed toward the hall door, watching as the fire spread. After lingering until certain that the house would soon be a seething pyre, he finally sprinted along the hall to the front door. Finished, she gave him a mirror, so he could admire his new bicuspid cap. After five years of dentistry, paced so as not to tax Nolly's tolerance, Kathleen had done well what nature had done poorly, giving him a perfect bite and a supernatural smile. This final cap was the last of the reconstruction. Tucking the covers around Angel, Celestina said, "Would you like Uncle Wally to be your daddy?" "That would be the best." "I think so, too." "I never had a daddy, you know." "Getting Wally was worth the wait, huh?" "Will we move in with Uncle Wally?" "That's the way it usually works." "Will Mrs. Orwall leave?" "All that stuff will need to be worked out." "If she leaves, you'll have to make the cheese." The rain-washed street shimmered greasily under the tires, and the intersection lay halfway up a long hill, so gravity was aligned with fate against them. The driver's side of the Pontiac lifted. Beyond the windshield, the main drag of Bright Beach tilted crazily. The passenger's side slammed against the pavement. She stepped on a broken-off chair leg, lost her balance, and fell backward into the side of the bed. Of course, he also might have shot off his own thumbs as double insurance against being drafted and sent to Vietnam. Her case of polio had been so severe that braces and crutches were never an option. Muscle rehabilitation had been ineffective.
